

# Global Food Production Analysis (1961-2023)

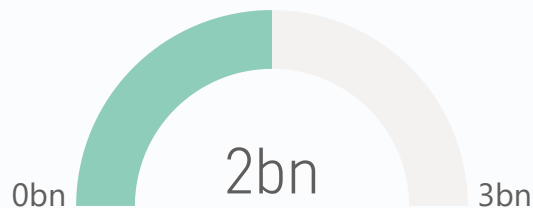

Sum of Rice Production (...)

269bn

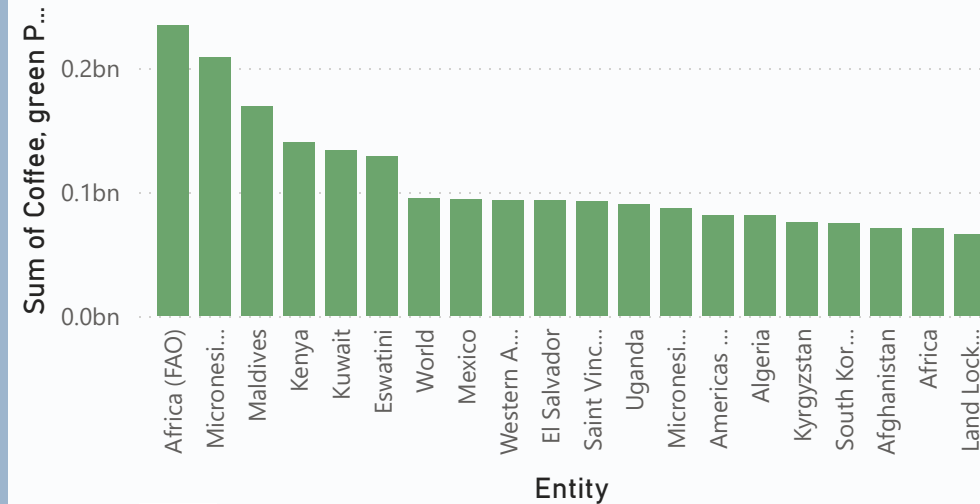

Sum of Wheat Production...

282bn

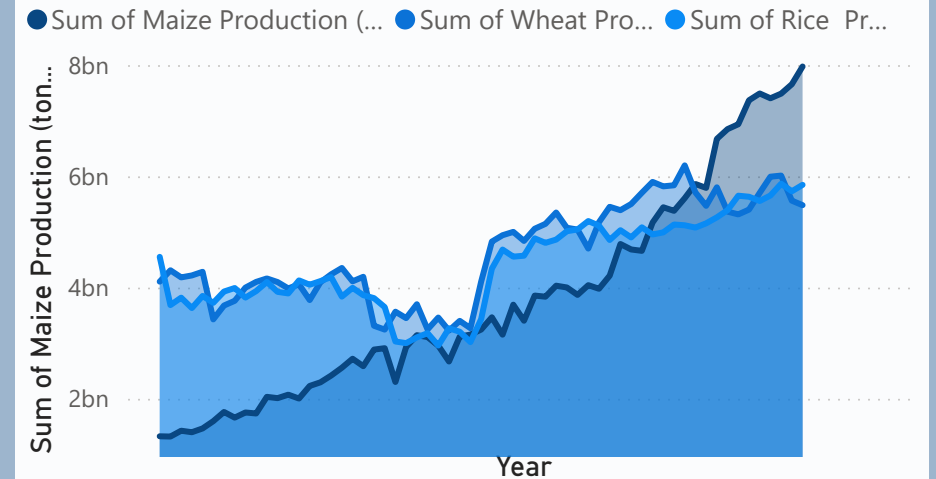

Sum of Tea Production ( tonnes )

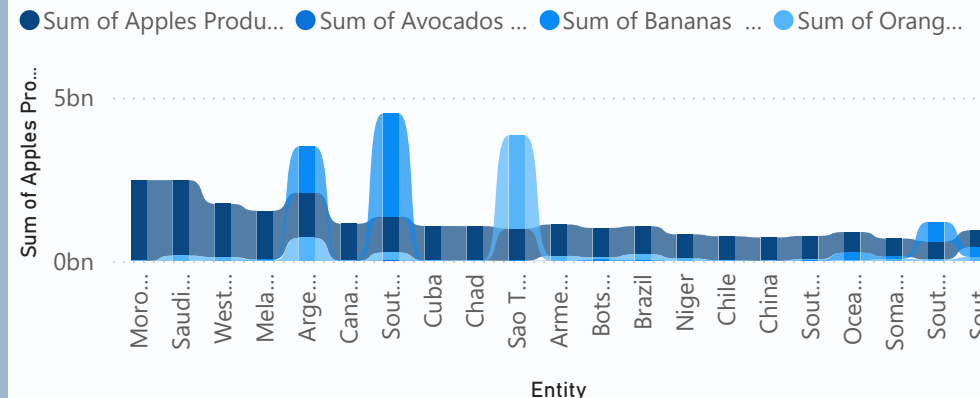

Sum of Coffee, green Production ( tonnes) by Entity

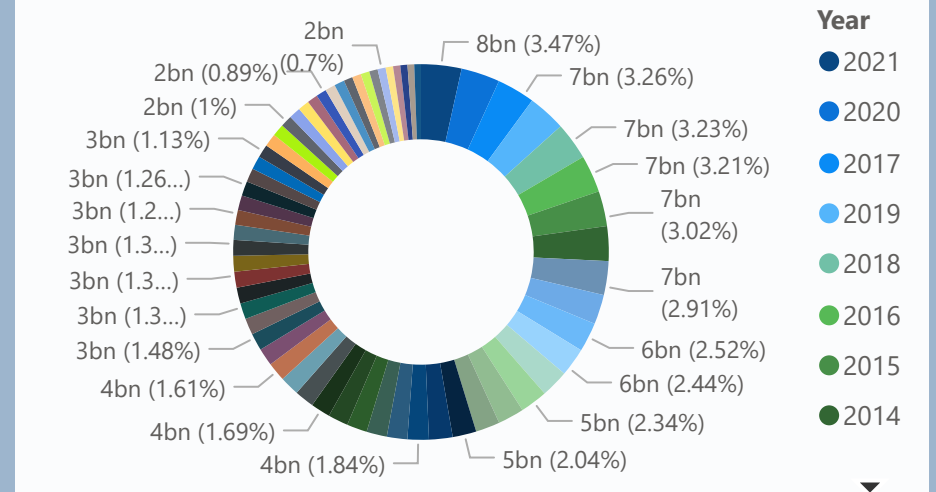

Sum of Maize Production (tonnes), Sum of Wheat Production (tonnes) and Sum of Rice Production ( tonnes) by Year

Sum of Apples Production (tonnes), Sum of Avocados Production (tonnes), Sum of Bananas Production ( tonnes) and Sum of Oranges Production (tonnes) by Entity

Sum of Maize Production (tonnes) by Year

Report

- **Total rice production amounted to 269 billion tonnes, highlighting its importance as a staple crop.**
- **Wheat production reached 282 billion tones, playing a crucial role in global food security.**
- **Tea production stood at 2 billion tonnes, represented through a gauge chart.**
- **Africa, Asia, and America emerged as the leading producers of green coffee.**
- **Wheat, maize, and rice production trends showed steady growth over the years, visualized using an area chart.**
- **Production volumes of apples, avocados, bananas, and oranges varied across regions, shown through a stacked bar chart.**
- **Maize production exhibited consistent growth, depicted with a donut chart representing yearly distribution.**
- **Grapes had the highest total fruit production at 43 billion tonnes, followed by apples (39B), bananas (32B), and oranges (26B), compared in a bar chart.**
